About Me

As a software developer, I am looking for a position where I can continue to grow and expand my skills. My goal is to join a company with a good development team which allows me to work on new projects and learn about new technologies.

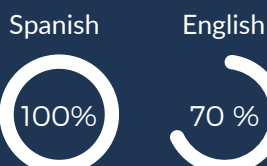

Currently I develop mainly in Python, because I want to learn technologies related to AI, machine learning, data analysis, etc.

Languages

Experience

IT support technician

Jan 2022 – Present

Dental Clínic Macías - San Pedro (Marbella)

- Currently I provide technical support and troubleshooting assistance to staff members in Dental clinic Macías.
- I am responsible for resolving hardware and software issues, as well as addressing network and connectivity problems. Makes back ups, clones disks, the server support or installing new software or computer peripherals.
- I also mentor and train staff members in the use of new software.

Web developer

03/01 - 03/18 2023

W&M Professional Services - Cancún, México

- I made the website of an accounting and tax services company, using no-code tools, chatgpt, and canva to make a mock-up and logo.
- The **company closed**, the website is closed, only the mock-up remains.

Computer teacher and social media manager

2019 - 2022

NATUR-VITA Chiromassage and Osteopathy Centre.

- I started by creating the center's social media accounts (Google business, instagram, facebook, youtube, ivoox, etc), and i teach to the owner to managed it. I developed educational materials and conducted training sessions to improve computer skills and Knowledge of the owner to try to teach him to editing videos with filmora9, office, photoshop, canvas, and a some basic marketing.
- Additionally, I created engaging and informative content for social media platforms to enhance the center's online presence.

Volunteering as 3D printing technician

03/20 - 06/18 2020

CV19_Fab Málaga Occidental

- Contributed to the production of 3D-printed visors and ear savers.
- Utilized **tinkercad** software to design and create visors and ear savers.
- Collaborated with a team of volunteers by telegram and facebook.

Junior Developer (Internship contract)

Mar – Jun 2009

Regional University Hospital of Malaga (Carlos Haya)

- We gave technical support to the doctors' computers.
- Write and maintain code.
- Fix minor bugs and errors in the code.
